Digital Wallet

If you have your phone, you have your debit card.

Pay with your Dime debit card¹² safely from your smartphone or computer in stores and online.

Forgot your wallet? No problem! Add your debit card to the digital wallet in your smartphone and make fast, secure purchases anytime. Digital Wallet is available at millions of locations where tap-to-pay is available.

Experience the convenience of Dime's Digital Wallet: _____

- **In stores**
Shop without having to take your card out or share your card number with merchants.
- **Online**
Your payment information is securely pre-loaded on your device for quick checkout.
- **Within apps**
Make purchases within merchant apps to pay for just about anything from your smartphone.
- **Digital wallet options for you.**
Apple Pay³, Google Pay⁴, and Samsung Pay⁵

¹ Due to an increase in fraudulent debit card and ATM card activity initiated in certain foreign countries, our Bank has taken preventative measures to protect our customers. As a result, many foreign countries will be blocked from allowing transactions to be processed on Dime Visa Debit Cards.

² Please contact us at 1-800-321-DIME (3463) if you plan to travel internationally, or outside of your normal geographic area, and we will make sure your card is working for you while you travel. It is also important that we have your current phone number on file so that we may contact you in the event that suspicious or out of the ordinary debit card or ATM card activity is recognized on your account.

³ Apple Pay is a registered trademark of Apple Inc.

⁴ Google Pay and the Google Pay Logo are trademarks of Google LLC.

⁵ Samsung Pay is a registered trademark of Samsung Electronics Co, Ltd.
